

Procedures associated with SBI	n=26 (14.8)
Isolated aortic valve surgery	16 (61.5)
Isolated mitral valve surgery	7 (26.9)
mitral valve repairs	5 (19.2)
mitral valve replacements	2 (7.7)
Double valve surgery	2 (7.7)
aortic and mitral valve	0 (0)
mitral and tricuspid valve	2 (7.7)
Other cardiac procedures (ASD/tumor)	1 (3.8)

Table 4. The number and percentage of silent brain infarction in each procedure.

The values were expressed as number and percentage (%), unless otherwise specified.

SBI, silent brain infarction; ASD, atrial septal defect
