Figures S1 to S5

Tables S1 to S5

Introduction

This supplementary information includes figures and tables that provide model evaluation, parameter values, and other summary statistics.

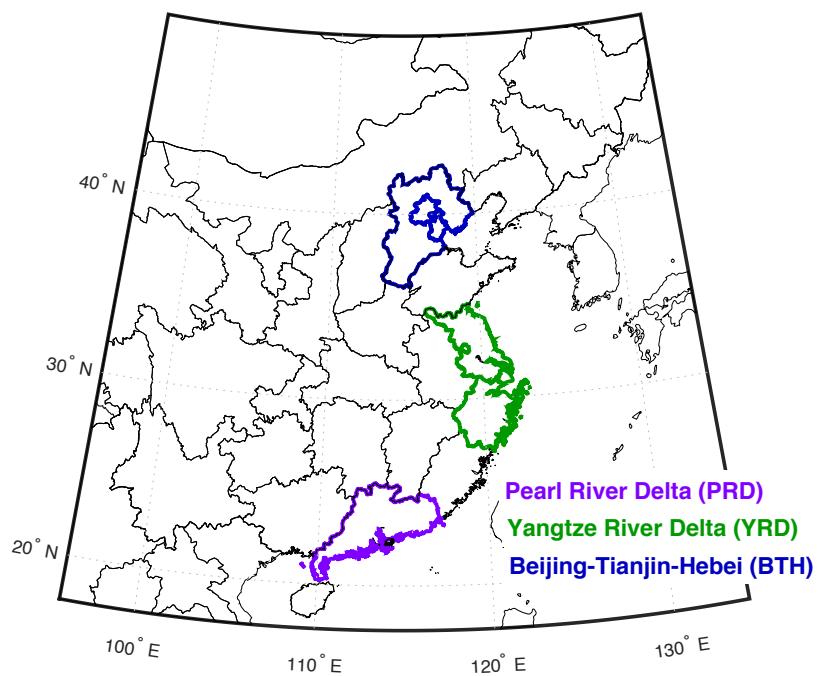

Figure S1. Major industrialized regions.

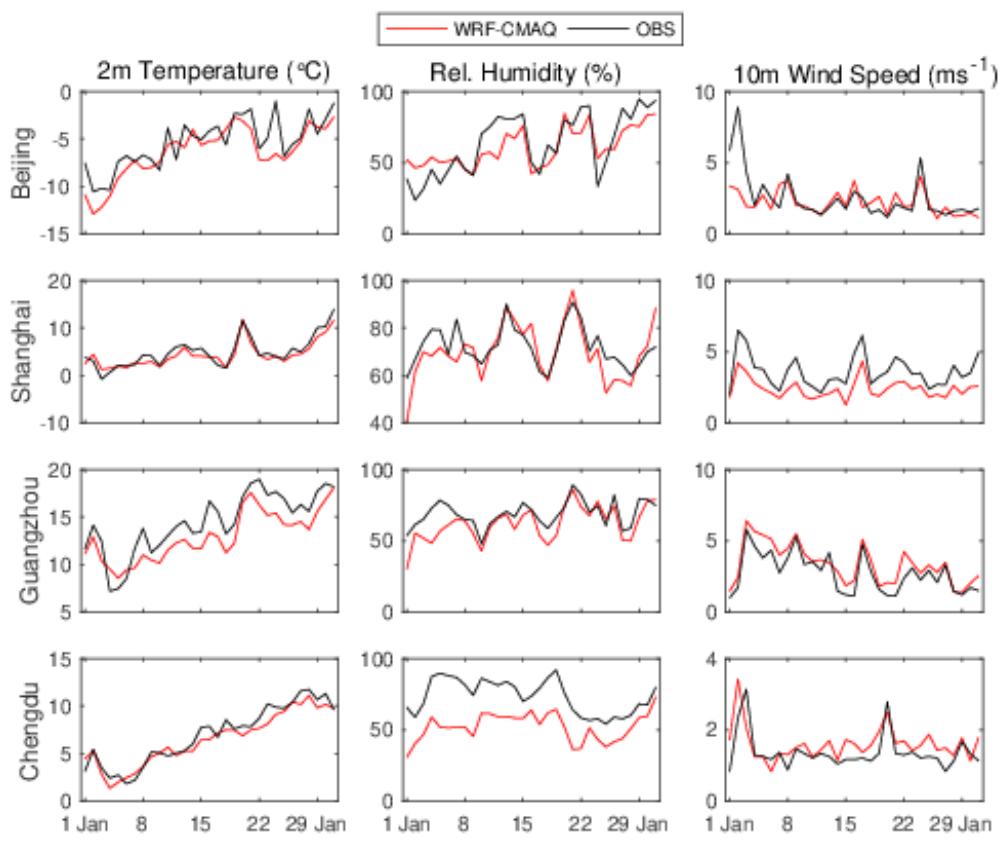

Figure S2. Meteorological comparison of WRF-CMAQ (red) against surface observations sites (NOAA NCEP Integrated Surface Database (<https://www.ncdc.noaa.gov/isd/data-access>)) nearest the sites where $\text{PM}_{2.5}$ is measured.

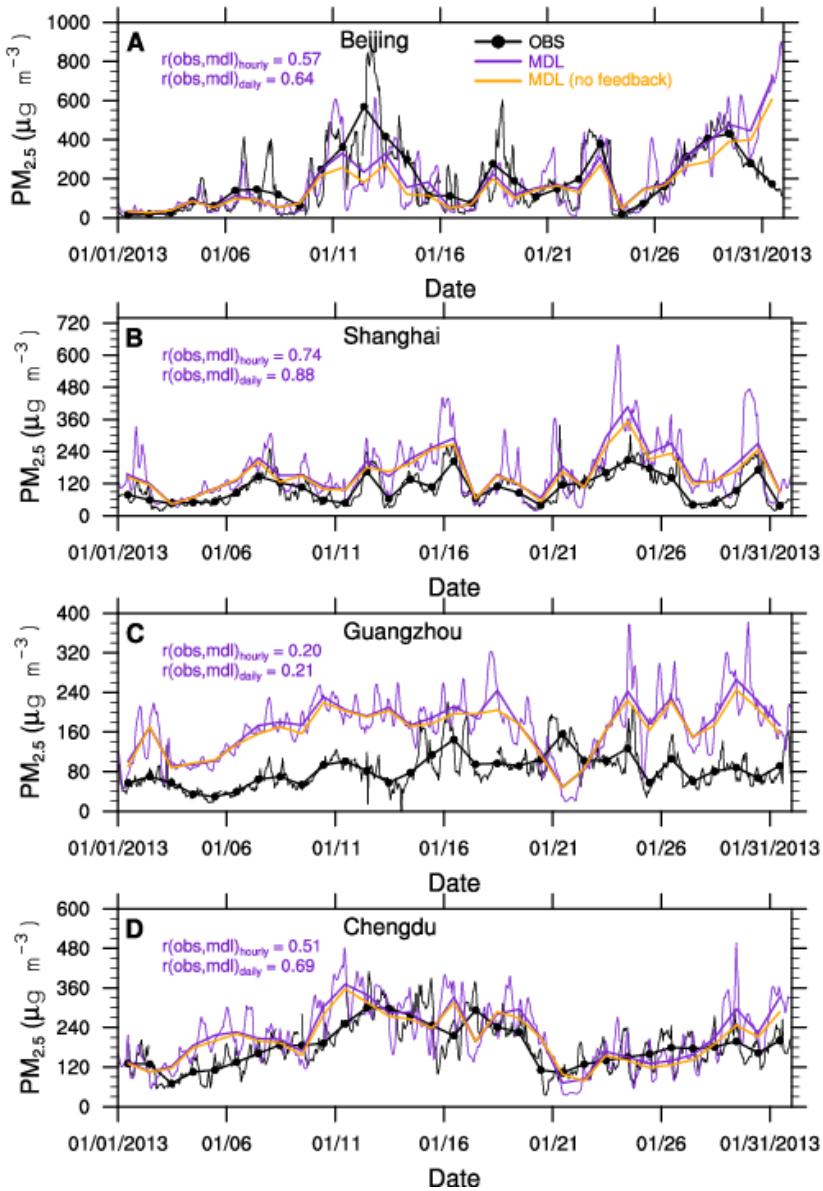

Figure S3. Comparison of WRF-CMAQ to U.S. Embassy observations. Purple lines are the single grid cells over the observation sites for *BASE*, orange is the simulation without shortwave aerosol-radiation feedback.

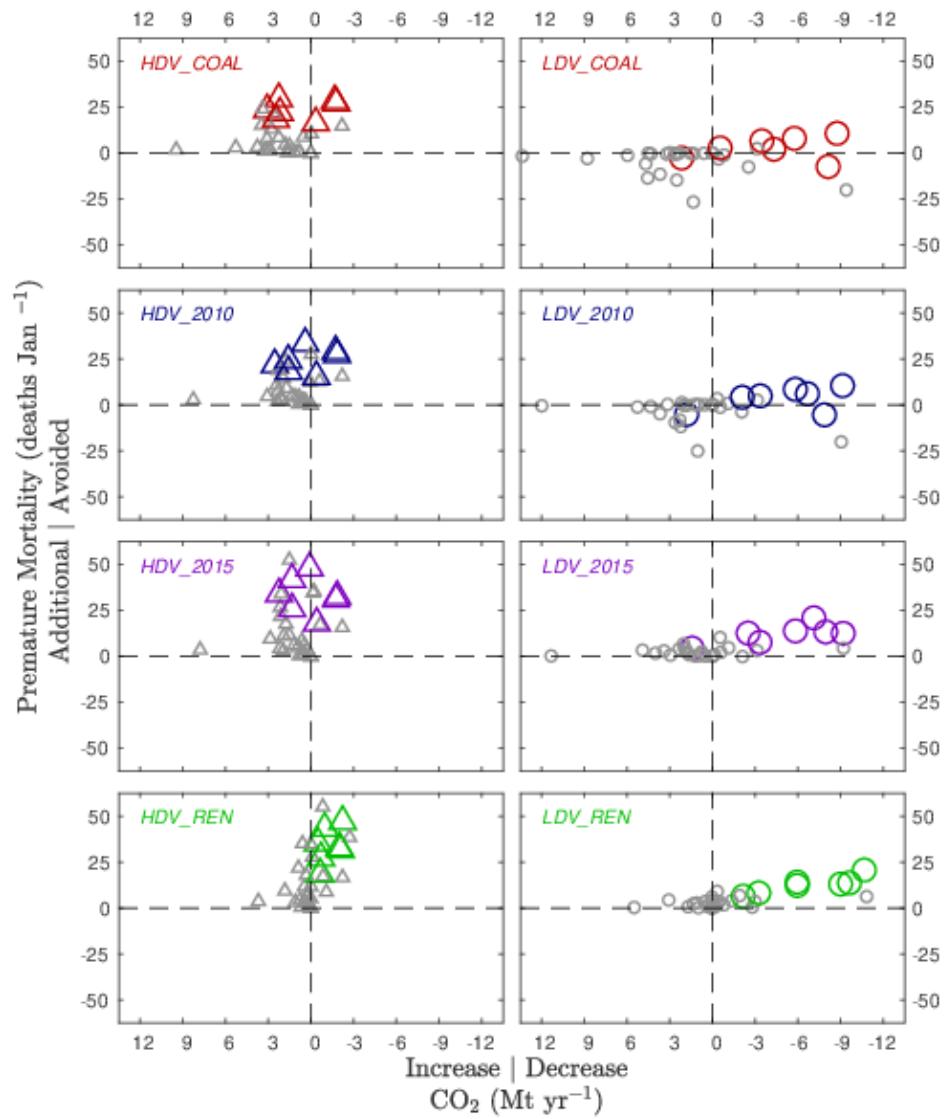

Figure S4. Province co-benefits for each experiment. Colored, large markers are provinces in major industrialized regions (Fig. S1).

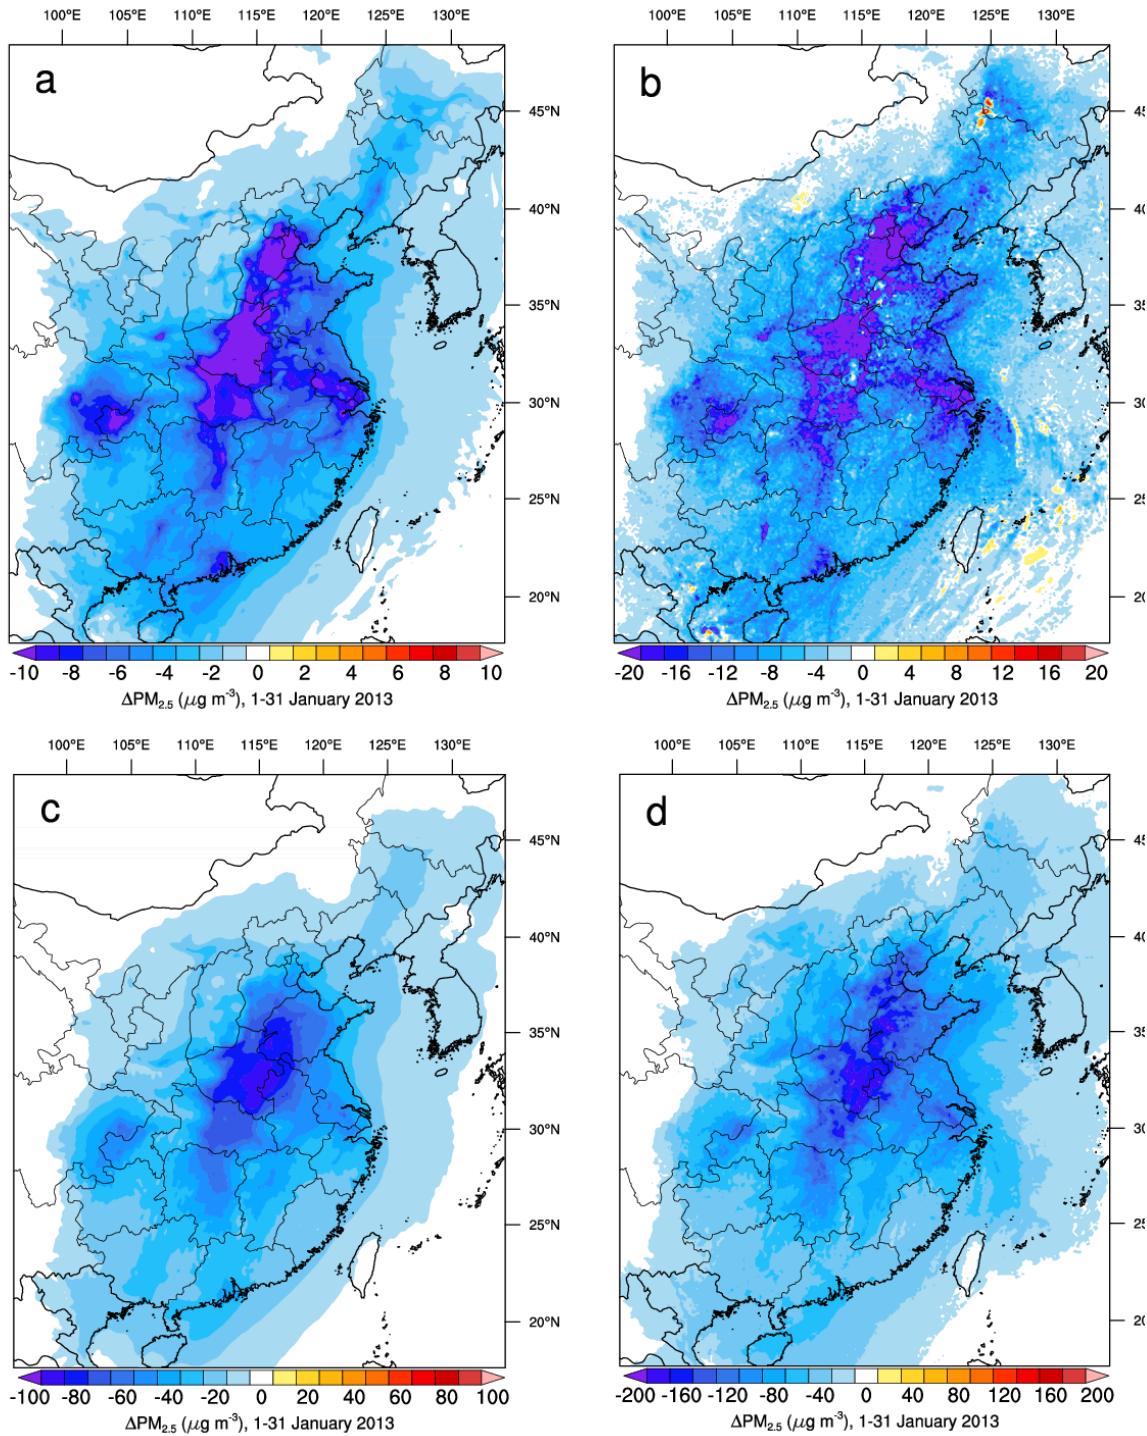

Figure S5. Mean (a, c) and (b, d) 95th percentile changes for (a, b) NO-TRA and (c, d) NO-ENE.

Health endpoints	β (per $10 \mu\text{g m}^{-3}$, 95% CI) (%)	References	IRs (%)	References	Unit Loss (US\$/case)	# BASE
Mortality	0.22 (0.15, 0.28)	Chen et al. (2017)	0.022377	BMBPH (2012)	273,513.36	67914
Respiratory hospital admission	2.0 (1.33, 2.67)	Aunan and Pan (2004), Zhang et al. (2007)	0.051925	BMBPH (2012)	2761.04	503402
Cardiovascular hospital	1.17 (0.5, 1.83)	Aunan and Pan (2004), Zhang et al. (2007)	0.093509	BMBPH (2012)	2761.04	581086
Outpatient visits—internal medicine (15+)	0.57 (0.32, 0.82)	Xu et al. (1995), Zhang et al. (2007)	2.92083	Zhang et al. (2007)	83.86	8671799
Outpatient visits—pediatrics (0–14)	0.65 (0.23, 1.07)	Xu et al. (1995), Zhang et al. (2007)	0.811925	Zhang et al. (2007)	83.86	256173
Acute bronchitis	9.17 (3.15, 15.18)	Jing et al. (2000), Zhang et al. (2007)	0.140377	Zhang et al. (2007)	407.03	3467216
Asthma	2.1(1.45, 2.74)	Xie et al. (2009)	0.215982	Zhang et al. (2007)	299.61	2175469

Table S1. Parameters, references, and number of cases for *BASE* for seven health endpoints. Parameters and references are a reproduction of Tables 1 and 2 from Gao et al. (2015).

Experiment	$\Delta\text{PM}_{2.5}$			ΔNO_2			ΔCO_2	Avoided Mortality	$10^6 \text{ US\$ Saved}$
	China	EV grid cells	e-forward cities	China	EV grid cells	e-forward cities
